## OPUS ATLAS 300

Unique binding and hot stamping machine in one with innovative solutions of METALBIND and GOLDCOVER systems applied. Hot stamps on METALBIND hard and soft covers, also on CD and DVD cases - CDcovers (using CDcover BASE IP) and on O.CHANNEL channels (using GOLDCHANNEL BASE IP). For the list of supplies and accessories please check the GOLDCOVER section. Very solid construction in metal housing. Recommended to be used in copy-shops for binding purposes and in offices for binding and hot stamping.

Equipped with the **COVERguide®** system.
